

International Green Summer School

What is the Green Summer School?

It is an interdisciplinary, international, and multicultural summer school in Aveiro (Portugal) where you will take part in workshops, seminars, and project on sustainable textiles. Studying, exploring, and designing will be merged with active and creative teamwork.

The topics of the projects will be focused on sustainable design and process in textiles.

What can I expect from the Green Summer School?

It is a unique chance to:

- gain knowledge on sustainable design and process in textiles,
- learn various and modern methods of project work,
- connect with 25 other students from 5 countries and creative mentors,
- discover Aveiro.

When?

The summer school takes place from 4 September to 8 September 2023.

Where?

The school will be held at University of Aveiro in Portugal.

More information about the university: <https://www.ua.pt> and the city: <https://www.visitportugal.com/en/content/visit-aveiro>.

What are the costs?

There are grants for all participants that will cover costs of travel expenses and accommodation. We will give you recommendations on where to stay.

Who can participate?

All students from our partner universities are welcome to apply. They should be a current student (preferably of bachelor study programmes). You must have proficient English skills and be interested in creative thinking, problem solving and teamwork.

How can I apply?

Filling in application form, <https://forms.gle/6pxeAAM1uUTtYryS6>, with EUROPASS attached.

Deadline for the first stage is 31 March 2023.

Second stage is a short interview. Further information will be delivered.

Information meeting

After the recruitment process we plan to organise Information Meeting to provide participants all essentials. Details will be announced by local coordinators.
